

X-Clean

DSB saw blade with special design to reduce saw dust accumulation.

The new X-Clean band saw blade by WINTERSTEIGER reduces sawdust on the lamellas by up to 92 %. A special design and geometry are responsible for this benefit. The new X-Clean is available for all WINTERSTEIGER thin-cutting band saws above starting from 1.1 mm kerf.

An optimum solution to combat dust that has been specially developed by WINTERSTEIGER and therefore guarantees an excellent downstream production workflow.

Comparison of DSB saw blade Stellite® ultra standard with DSB saw blade X-Clean

Wood species	Larch	Pine, glued up
Block dimensions (in mm)	2430 x 190	800 x 600
Sawn surface (in m²)	0.46	0.48
Saw dust accumulation (in g)	26.7	13.9
Saw dust accumulation X-Clean (in g)	2.3	4.5
Deviation (in g)	24.4	9.4

Saw dust reduction	92 %	68 %
---------------------------	-------------	-------------

Your benefits summed up:

- Up to 92 % less saw dust formation
- Same feed speed as the standard saw blade
- Positive influence on saw blade life time
- WINTERSTEIGER saw blade quality applicable to DSB Singlehead and DSB Twinhead
