

Boot Disinfection and Deodorisation

Easyfresh Device + Helmet Option

Bacteria have no chance anymore with Easyfresh! With two nozzles on each arm the whole boot can be disinfected perfectly. The compact machine has two arms for boots and one flexible nozzle for the treatment of helmets. Therefore your boots and helmets are always fresh and sanitized! !

- the flow rate und spray period can be choosen on the control panel
- compressed air needed (6 bars pressure from the workshop outlet or a small separate compressor)
- space for 2 separate liquid cans (5 lt. each), 1 for boots and 1 for helmets
- works without electricity for a maximum of safety and reliability
