

WINTERSTEIGER AG presents:

Locker systems for ski depots, mountain lifts, hotels an chalets

Equipping ski rooms for mountain operators, hotels an ski rental services is an important issue with many facets. WINTERSTEIGER fulfills customer needs in all these areas with his modular design „Easystore“.

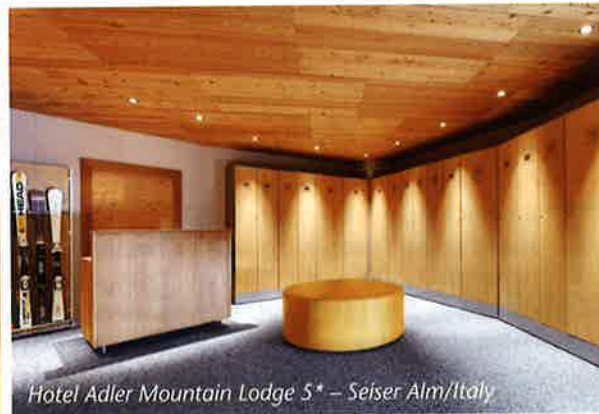

Tschuggen Grand Hotel 5 – Arosa/Switzerland.*

Dantercepies – Selva Gardena/Italy

Hotel Bellerive 3 – Zermatt/CH*

Hotel Adler Mountain Lodge 5 – Seiser Alm/Italy*

Create your own system module by module

Easystore locker systems are tailor-made solutions for the storage of skis, snowboards and other equipment like helmets and gloves. The systems are configured to fit the size and customer structure of the respective operation and their optimal use of floorspace is very convincing. The lockers are characterized by their modern look, great flexibility and stability. There are various locker sizes to choose from, as well as design elements like fronts, panels and covers, functional elements like fans, shoe and helmet dryers, or different locking systems, just to name a few. The guests appreciate the comfortable storage of their ski equipment as well as the fact that it is dried quickly and hygienically.

Skjårea Miara – Kronplatz/Italy
