

Cibus

Harvester for herbs and wildflowers.

In collaboration with users, the Cibus has been developed specifically for harvesting herbs and flowers and provides for efficient and gentle harvesting of these crops.

Your benefits summed up:

- Uniform flow of harvested material using a 5-part reel with 3 brush bars
- UNI-FLOW header with 125 or 150 cm (49" or 59") cutting width and conveyor belt for maximum harvesting performance
- Mix-free harvesting thanks to a special conveyor belt with 17 mm (0.7") raised slats
- Space for a transportation and drying box up to max. 160/120/106 cm (63"/47"/42") or with a back wall to store the harvested material directly
- LED working lights for excellent visibility
