Sigma S 350

Base grinding machines

Year of construction: 2003-2013

EUR Price and availability on request

Sigma S offers a divided structure allowing the possibility of applying two completely different structures on either side of the stone. This means you can pre-grind the skis on one half of the stone, and run the finish structure on the other half of the stone. The 32 pre-programmed grinding programs can be modified and safed individually.

Grinding stone Ø 300 x 350 mm
Stone speed min. - max. 300 – 1000 rpm
Feed speed min. - max. 5 – 20 m/min
Feed pressure min. - max. 150 – 450 N
Dressing speed min. - max. 3 – 25 mm/sec
