

21Hundred IL-T

Stone Grinder

Year of construction: 2004
Machine location: GSS-11-00264

The GRINDrite 21hundred is the latest generation of in-line stone and belt grinding machines. Featuring all of the proven structure capabilities from Wintersteiger, the 21hundred features fully variable belt, stone, dresser and feed speeds, as well as an operator friendly touch screen display that will store up to 32 different grind patterns. The 21hundred also features split stone capabilities and the three roller feed wheel.

208 220 volt, 1 AC
